NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The financial report is for the Zank Income Fund ('the Fund'). The Fund is an unregistered managed investment scheme established and domiciled in Australia. The Trustee of the Fund is Vasco Investment Managers Limited, and Zank and Company Pty Ltd is appointed as the Investment Manager of the Fund.

Financial Reporting Framework

The Fund is not a reporting entity, because in the opinion of the Directors of the Trustee, there are unlikely to exist users of the financial report who are unable to command the preparation of reports tailored, so as to specifically satisfy all of their information needs. Accordingly, this special purpose financial report has been prepared to satisfy the Directors of the Trustee's reporting requirements under *Corporations Act 2001*.

Basis of Preparation

(a) Statement of compliance

The Fund has elected to adopt the Australian Accounting Standards – Reduced Disclosure Requirements (established by AASB 1053 Application of Tiers of Australian Accounting Standards and AASB 2010-2 Amendments to Australian Accounting Standards arising from Reduced Disclosure Requirements).

These financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the *Corporations Act 2001*. Zank Income Fund is a for-profit entity for the purpose of preparing the financial statements.

The financial statements were approved by the Board of Directors of the Trustee on 24 September 2019.

(b) Basis of measurement

The financial report is prepared on the historical cost basis except for the following material items in the statement of financial position:

Investment assets are measured at fair value.

(c) Functional and presentation currency

These financial statements are presented in Australian dollars, which is the Fund's functional currency.

(d) Use of estimates and judgements

The preparation of financial statements requires the Directors of the Trustee to undertake a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

(i) Fair value estimation

Investment properties are carried at values that are based on assumptions and estimates. If any of these assumptions or estimates were not correct this could have a material impact on the carrying amounts in the statement of financial position

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)

Significant accounting policies

(a) Financial instruments

Financial assets and financial liabilities are recognised on the Fund's Statement of Financial Position when the Fund becomes a party to the contractual provisions of the instrument.

(i) Measurement

Financial assets and financial liabilities are held at fair value through profit or loss.

Under this approach, financial assets and financial liabilities are generally measured initially at fair value excluding any transaction costs that are directly attributable to acquisition.

Subsequent to initial recognition, all financial instruments are measured at fair value with changes in their fair value recognized in the statement of comprehensive income.

Fair value in an active market

The fair value of financial assets and liabilities traded in active markets are based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices on the reporting date, while financial liabilities are priced at current offer prices.

Fair value in an inactive or unquoted market

The fair values of financial assets and liabilities that are not traded in an active market are determined through the valuation policy identified in the Information Memorandum for the Fund.

(ii) Categorisation

The Fund's investments are categorised as follows:

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Financial liabilities and equity

Financial liabilities and equity instruments issued by the Fund are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. The accounting policies adopted for specific financial liabilities and equity instruments are set out below:

Issued units

The Fund issues units which have a limited life under the Fund's Constitution and are classified as equity in accordance with AASB 132 Financial Instruments: Presentation as amended by AASB 2008-2 Amendments to Australian Accounting Standards – Puttable Financial Instruments and Obligations Arising on Liquidation.

Should the terms or conditions of the units change such that they no longer comply with the criteria for classification as equity in the revised *AASB 132*, the units would be reclassified to a financial liability from the date the instrument ceases to meet the criteria. The financial liability would be measured at the instrument's fair value at the date of reclassification. Any difference between the carrying amount of the equity instrument and the fair value of the liability at the date of reclassification would be recognised in equity.

Where the Fund buys back any of its units from unitholders, the consideration paid, including any directly attributable incremental costs are recognised as a reduction in equity attributable to the Fund's unitholders.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)

(b) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense. Receivables and payables in the statement of financial position are shown inclusive of GST, and accruals are shown exclusive of GST.

(c) Income tax

Under current legislation, the Fund is not liable for income tax provided its taxable income is fully distributed to unitholders.

(d) Critical judgements and significant accounting estimates

The preparation of financial statements requires the Directors of the Trustee to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

(e) Comparatives

As the Zank Income Fund commenced operations in July 2016, there are comparative numbers for the year ending 30 June 2018.

(f) New accounting standards and interpretations

A number of new accounting standards and interpretation have been published, and are mandatory for the 30 June 2019 reporting period, having come into effect on the 1 January 2018:

(i) AASB9 Financial Instruments

Broadly, this standard requires all financial instruments to be measured at fair value unless the criteria for amortised cost are met.

The introduction of the standard has not changed the measurement basis of any of the Fund's current financial instruments.

(ii) AASB 15: Revenue from contracts with customers

Broadly, this standard relates to the recognition of revenue from contracts for goods and services, including construction contracts.

While this standard does not relate to a significant portion of the Fund's holdings, to the extent that it does apply, it is not expected to change the measurement basis of any of the Fund's current financial instruments, or the valuation of the Fund's assets.

There are no pending standards that are relevant to the Fund in the current or future reporting periods as at the issue date of this report.
