

ChinaAMC China Opportunities Fund

Product Disclosure Statement

ARSN 607 143 573

APIR SLT0065AU

Issue Date 19 December 2019

About this PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by Equity Trustees Limited ("Equity Trustees", "we" or "Responsible Entity") and is a summary of the significant information relating to an investment in the ChinaAMC China Opportunities Fund (the "Fund"). It contains a number of references to important information (including a glossary of terms) contained in the ChinaAMC China Opportunities Fund Reference Guide ("Reference Guide"), which forms part of this PDS. You should carefully read and consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Fund.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial and taxation advice tailored to your personal circumstances and consider whether investing in the Fund is appropriate for you in light of those circumstances.

The offer to which this PDS relates is only available to persons receiving this PDS (electronically or otherwise) in Australia.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the Securities Act of 1933 as amended ("US Securities Act"). Equity Trustees may vary this position and offers may be accepted on merit at Equity Trustees' discretion. The units in the Fund have not been, and will not be, registered under the US Securities Act unless otherwise approved by Equity Trustees and may not be offered or sold in the US to, or for, the account of any US Person (as defined in the Reference Guide) except in a transaction that is exempt from the registration requirements of the US Securities Act and applicable US state securities laws.

The Reference Guide

Throughout the PDS, there are references to additional information contained in the Reference Guide. You can obtain a copy of the PDS and the Reference Guide, free of charge, by visiting the Investment Manager at www.vascofm.com or by visiting Equity Trustees at www.eqt.com.au/insto or by calling the Responsible Entity.

The information contained in the Reference Guide may change between the day you receive this PDS and the day you acquire the product. You must therefore ensure that you have read the Reference Guide current as at the date of your application.

Updated information

Information in this PDS is subject to change. We will notify you of any changes that have a material adverse impact on you or other significant events that affect the information contained in this PDS. Any information that is not materially adverse information is subject to change from time to time and may be obtained by visiting the Investment Manager at www.vascofm.com or by visiting Equity Trustees at www.eqt.com.au/insto. A paper copy of the updated information will be provided free of charge on request.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Vasco Trustees Limited as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Vasco Trustees Limited

The role of the Investment Manager is performed by Vasco Trustees Limited ("Vasco" or "Investment Manager"). Established in 2009 Vasco manages a broad range of investment funds on behalf of retail, and institutional investors. Vasco is the holder of AFSL 344486. As Investment Manager Vasco's role is to promote and market the Fund and also overseeing and monitoring the Portfolio Manager's investment and management of the Fund.

The Portfolio Manager

China Asset Management (Hong Kong) Limited

Established in April 1998, China Asset Management Co., Ltd. ("ChinaAMC") was one of the first China-wide fund management companies approved by China Securities Regulatory Commission (CSRC). Its head office is located in Beijing, with a subsidiary located in Hong Kong to service overseas investors – China Asset Management (Hong Kong) Limited ("ChinaAMC (HK)" or "Portfolio Manager"). ChinaAMC (HK) is the portfolio manager of the Fund. As Portfolio Manager, ChinaAMC (HK) is responsible for managing the investments of the Fund in accordance with the Fund's investment objectives and mandate as set out in this PDS.

2. How the ChinaAMC China Opportunities Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$10,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

ChinaAMC China Opportunities Fund
GPO Box 804
Melbourne VIC 3001

Please note that cash cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.50%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$5,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at the end of June. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

ChinaAMC China Opportunities Fund
GPO Box 804
Melbourne VIC 3001

Or sending it by email to info@vascofm.com

The minimum withdrawal amount is \$5,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 10 Days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.50%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$10,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

Further reading

You should read the important information in the Reference Guide about:

- Application cut-off times;
- Application terms;
- Authorised signatories;
- Reports;
- Withdrawal cut-off times;
- Withdrawal terms; and
- Withdrawal restrictions,

under the "Investing in the ChinaAMC China Opportunities Fund", "Managing your investment" and "Withdrawing your investment" sections before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

3. Benefits of investing in the ChinaAMC China Opportunities Fund

The ChinaAMC China Opportunities Fund based in Australia is actively managed by China Asset Management (HK) Ltd in order to mirror the portfolio of the ChinaAMC China Opportunities Fund Class A USD based in Hong Kong (the "Hong Kong Fund"). The Hong Kong Fund focuses on investing in equities of China-related companies with registered offices located in the People's Republic of China ("PRC") and/or Hong Kong, and/or China related companies that do not have their registered offices in the PRC or Hong Kong but either (a) carry out a predominant proportion of their business activities in the PRC or Hong Kong, or (b) are holding companies which predominantly own companies with registered offices in the PRC or Hong Kong.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Security Specific Risk

The value of the Fund's investment may be affected by unexpected changes in the value of securities held in the Fund's portfolio. Such changes may be due to unexpected operational or economic changes applicable to relevant securities including changes in a company's management, product distribution, and its ability to pay dividends.

Currency Risk

The Fund invests in investments in other countries. Accordingly, any change in the value of the currencies of those investments relative to the functional currency of the Fund Portfolio, being the Australian Dollar, can change the value of those investments. This could in turn adversely affect the value of the Fund portfolio's investments.

The Fund does not generally hedge against currency risk. However, the Fund may hedge up to 60% of the value of the assets of the Fund against currency risk where the portfolio manager is of the opinion that this would be in the best interests of the Fund.

International Investing Risk

The risk of international investing includes foreign withholding tax or duties on income or capital gains, securities regulations, market and settlement practices, potential political and economic instability affecting overseas markets, limited liquidity and volatile prices of international investments, and investment repatriation restrictions.

Investment and credit risk

This is the risk that the value of an individual investment in the Fund may change or become more volatile, potentially causing a reduction in the value of the Fund and increasing its volatility. This may be because, amongst many other things, there are changes in Government policies, the business environment, or a change in perceptions of the risk of any investment. Various risks may lead to the issuer of the investment defaulting on its obligations and reducing the value of the investment to which the Fund has an exposure. The Fund is also subject to the credit risk of all of its counterparties, including the Investment Manager.

Market risk

This is the risk that an entire market, country or economy changes in value or becomes more volatile, including the risk that a country's credit rating is downgraded, which reduces the nation's perceived creditworthiness, the purchasing power of the currency changes (either through inflation or deflation), and/or other market-wide factors, like economic growth or the unemployment rate deteriorate, which can cause a reduction in the value of the Fund and increase its volatility. This may be because, amongst many other things, there are changes in economic, financial, technological, environmental, political or legal conditions, natural and man-made disasters, conflicts and shifts in market sentiment. The Fund may invest up to 30% of its assets in cash or cash equivalents, typically utilised during market downturn.

Interest rate risk

This is the risk that changes in interest rates can have a negative impact on certain investment values or returns. Reasons for interest rates changes are many and include variations in inflation, economic activity and the policies of central banks such as the Reserve Bank of Australia or its equivalent in other countries.

Ratings risk

The assets in which the Fund invests may or may not have been assigned credit ratings by independent ratings agencies. A ratings downgrade could significantly reduce the value of an investment and impact the value of the units of the Fund. Credit ratings do not guarantee the credit quality of a security, its underlying assets or its repayment, and may be re-assessed by ratings agencies in a range of circumstances. Ratings agencies can make mistakes. The Fund seeks to minimise this risk by assessing the credit risks inherent in any investments it makes.

Financial instruments risk

It is also possible that from time to time derivatives may be used to manage the Fund's risks when considered appropriate.

Using sophisticated financial instruments has certain risks.

Derivatives are not used with the intention to gear the Fund (or cause it to be leveraged). If using a financial instrument brings with it the obligation for the Fund to pay more money under certain circumstances, the Investment Manager makes sure that the Fund has the money or assets set aside to meet this requirement.

However, various risks remain, including the value of a derivative failing to move in line with the underlying asset, potential illiquidity of a derivative, the Fund (or the underlying investment) not being able to meet payment obligations as they arise, potential leverage (or gearing) resulting from the position and counterparty risk (counterparty risk is where the other party to the derivative cannot meet its obligations).

Specialist professionals are employed to help manage the Fund and have a thorough understanding of the financial instruments it invests in. The Portfolio Manager deals with issuers and counterparties it considers to be reputable.

Unfortunately, using derivatives to reduce the Fund's risks is not always successful, is not always used to offset all relevant Fund risk, and is sometimes not cost effective or practical to use.

Volatility risk

Markets can be volatile. Investing in volatile conditions usually implies a greater level of risk for investors than an investment in a more stable market. The Fund is expected to have higher volatility than bank deposits.

Valuation risk

The value of the Fund's underlying investments, as obtained from independent valuation sources, may not accurately reflect the realisable value of those investments. The Fund seeks to reduce this risk by seeking that all the assets of the Fund are valued independently on a daily basis and wherever possible using market prices.

Liquidity risk

This is the risk that your withdrawal requests cannot be met when you expect. Because cash is paid to your account when you withdraw investments of the Fund may need to be sold to pay you. Depending on factors such as the state of the markets, selling investments is not always possible, practicable or consistent with the best interests of investors.

This is one of the reasons why the constitution for the Fund specifies limited circumstances where there could be a delay in meeting your withdrawal request. The law sometimes restricts withdrawals.

Although you may sell your units privately, you may not find a buyer or a buyer at the price you want.

Structure risk

This is the risk associated with having someone invest for you.

Risks associated with investing in the Fund include that it could be closed and your money returned to you at the prevailing valuations at that time; there can be a change in the responsible entity or at the investment manager or at the portfolio manager (for example if key individuals were no longer involved in managing the Fund); someone involved with your investment (even remotely) does not meet their obligations or perform as expected, assets may be lost, not recorded properly or misappropriated, laws may adversely change, insurers may not pay when expected, systems may fail or insurance may be inadequate.

Investment decisions by portfolio managers such as ChinaAMC (HK), although taken carefully, are not always successful. Investing through an administration platform or through your stockbroker also brings some risks that the operator of the administration platform or your stockbroker may not perform its obligations properly. For instance, the stockbroker may make mistakes. Although unlikely, stockbroker systems could fail or there could be errors, anomalies or irregularities.

Investing in the Fund may give inferior results compared to investing directly (where for example you avoid the impact of others coming and going and may be able to manage your tax situation better).

Information risk

We are committed to ensuring that your information is kept secure and protected from misuse and loss and from unauthorised access, modification and disclosure. We use the Internet in operating the Fund, and may store records in a cloud system. If stored overseas, different privacy and other standards may apply there.

The internet does not however always result in a secure information environment and although we take steps we consider reasonable to protect your information, we cannot absolutely guarantee its security.

Managing risk

As risk cannot be entirely avoided when investing, the Fund aims to identify and manage risk as far as is practicable.

Whenever investments are made, the potential for returns in light of the likely risks involved are assessed.

Risk is considered throughout the investment process and at each level of the investment process. As far as is practicable, risk is managed at both the individual investment and the Fund level.

However, many risks are difficult or impracticable to manage effectively and some risks are beyond our and the Investment Manager's control altogether.

Risk generally

The significant risks of investing in managed investment schemes generally include the risks that:

- the value of investments will vary, the level of returns will vary, and future returns will differ from past returns,
- returns are not guaranteed and investors may lose some or all of their money, and
- laws affecting registered managed investment schemes may change in the future.

The level of risk for you particularly will vary depending on a range of factors, including age, investment time frame, how other parts of your wealth are invested, and your risk tolerance. If you are unsure whether this investment is suitable for you, we recommend you consult a financial adviser. If you have questions about the Fund, feel free to call Vasco.

Further information about the risks of investing in managed investment schemes can be found on ASIC's MoneySmart website at www.moneysmart.gov.au.

5. How we invest your money

Warning: Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The ChinaAMC China Opportunities Fund aims to outperform the MSCI China Index in the long term with a focus on capital preservation in down markets.

The investment objective is not intended to be a forecast. It is only an indication of what the investment strategy aims to achieve over a rolling 12 month period. The Fund may not achieve its investment objective. Returns are not guaranteed.

Benchmark

MSCI China Index.

Minimum suggested time frame

The suggested investment timeframe is 3-5 years or more.

Risk level of the Fund

Medium to high risk.

Investor suitability

Those investors with medium to high risk tolerance seeking returns above the MSCI China Index.

Investment style and approach

Through specialised fundamental research, solid investment process, and prudent risk management, ChinaAMC is able to convert investment research findings into discretionary investment decisions and aims to deliver consistent performance for investors. ChinaAMC has a team of equity research analysts covering different sectors in the Chinese and Hong Kong markets. For each sector, they not only cover large-cap but also small-/midcap companies. The investment team conducts on-the-ground research and carries out 360-degree interviews with the suppliers, distributors and competitors of companies considered for investment, to obtain full-dimension information. Through extensive and in-depth fundamental research, ChinaAMC believes that outperformance is sustainable and repeatable.

Asset allocation

The Fund is actively managed by the Portfolio Manager and will primarily invest in China related listed equity securities (including in companies listed in Hong Kong, the U.S., and Singapore and on the China A-share and B-share markets), fixed interest securities, cash or cash equivalents and promissory-notes. Exposure to China A-shares may be direct or made through the ChinaAMC (HK)'s ChinaAMC China A Share Opportunities Fund.

The Fund does not generally hedge against currency risk. However, the Fund may hedge up to 60% of the value of the assets of the Fund against currency risk where the portfolio manager is of the opinion that this would be in the best interests of the Fund.

It is also possible that from time to time derivatives may be used to manage the Fund's other risks when considered appropriate.

The Fund may invest up to 30% of its assets in cash or cash equivalents, typically utilised during market downturn.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

None of the Responsible Entity, the Investment Manager or the Portfolio Manager take into account labour standards or environmental, social or ethical considerations for the purposes of selecting, retaining or realising investments.

Fund performance

Up to date information on the performance of the Fund can be obtained from www.vascofm.com or www.eqt.com.au/insto. A free of charge paper copy of the information will also be available on request.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following template can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

TYPE OF FEE OR COST	AMOUNT
Fees when your money moves in or out of the Fund	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Termination fee	Nil
Management costs	
The fees and costs for managing your investment ¹	Management fees: 2.25% p.a. of the NAV of the Fund ²

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

² Management fees can be negotiated. See "Differential fees" below.

Additional Explanation of fees and costs

What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than by investing directly in the underlying assets of the Fund.

Management costs include management fees. In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be met by Buy/Sell Spreads).

Management fees

The management fees of 2.25% p.a. of the NAV of the Fund are payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees (excluding transaction-based fees such as trading or settlement costs incurred by the custodian), administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management fees shown above do not include extraordinary expenses (if they are incurred in future), such as litigation costs and the costs of convening investor meetings.

Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transactional and operational costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of derivatives used for hedging purposes (if applicable). This generally happens when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.50% upon entry and 0.50% upon exit. The dollar value of these costs based on an application or a withdrawal of \$10,000 is \$50 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread reflecting the compensation taken by market makers in providing liquidity for that asset.

During the financial year ended 30 June 2017, the total transaction costs for the Fund were estimated to be 0.24% of the NAV of the Fund, of which 100% of these transaction costs were recouped via the Buy/Sell Spread, resulting in a net transactional cost to the Fund of 0% p.a. However, actual transactional and operational costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Trust on their investment menus. Product access is paid by the Investment Manager out of its management fees and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients.

Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – ChinaAMC China Opportunities Fund		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management costs	2.25% p.a.	And, for every \$50,000 you have in the Fund you will be charged \$1,250 each year
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of: \$1,250* What it costs you will depend on the fees you negotiate.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$50,000 balance only.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

ChinaAMC China Opportunities Fund
GPO Box 804
Melbourne VIC 3001

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the Application Form provided by the operator of the IDPS.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

Complaints resolution

Equity Trustees has an established complaints handling process and is committed to properly considering and resolving all complaints. If you have a complaint about your investment, please contact us on:

Phone: 1300 133 472
Post: Equity Trustees Limited
GPO Box 2307, Melbourne VIC 3001
Email: compliance@eqt.com.au

We will acknowledge receipt of the complaint as soon as possible and in any case within 3 days of receiving the complaint. We will seek to resolve your complaint as soon as practicable but not more than 45 days after receiving the complaint.

If you are not satisfied with our response to your complaint, you may be able to lodge a complaint with the Australian Financial Complaints Authority ("AFCA").

Contact details are:
Online: www.afca.org.au
Phone: 1800 931 678
Email: info@afca.org.au
Post: GPO Box 3, Melbourne VIC 3001.

The external dispute resolution body is established to assist you in resolving your complaint where you have been unable to do so with us. However, it's important that you contact us first.

9. Other information

Consent

The Investment Manager has given and, as at the date of this PDS, has not withdrawn:

- its written consent to be named in this PDS as the investment manager of the Fund; and

- its written consent to the inclusion of the statements made about it, the Portfolio Manager and the Hong Kong Fund, in the form and context in which they appear.

The Investment Manager has not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. None of the Investment Manager nor their employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which they have provided their written consent to Equity Trustees for inclusion in this PDS.
