**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE PERIOD ENDED 30 JUNE 2022**

**NOTE 1: SIGNIFICANT ACCOUNTING POLICIES**

**Reporting Entity**

The financial report is for the entity First Trust Land Fund ('the Fund') as an individual entity. The Fund is an open-ended unlisted registered managed investment scheme structured as a unit trust established by the Responsible Entity pursuant to the Constitution and is governed by Australian law. The Responsible Entity of the Fund is Vasco Responsible Entity Services Limited.

**Basis of Preparation**

**(a) Statement of compliance**

The financial report is a general-purpose financial report which has been prepared in accordance with Australian Accounting Standards (including the Australian Accounting interpretations) adopted by the Australian Accounting Standards Board ("AASB") and the *Corporations Act 2001*. The financial report of the Fund complies with International Financial Reporting Standards and interpretations adopted by the International Accounting Standards Board.

The Fund is a for-profit entity for the purpose of preparing the financial statements.

The financial statements were approved by the Board of Directors of the Responsible Entity on 24 October 2022.

**(b) Basis of measurement**

The financial report is prepared on the historical cost basis except for the following material items in the statement of financial position:

Investment assets are measured at fair value.

**(c) Going Concern**

The financial report has been prepared in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and adopted by the Australian Accounting Standards Board ("AASB") and the *Corporations Act 2001* which are based on the Fund continuing as a going concern. The going concern basis has been reviewed by the Directors.

The Fund's ability to continue as a going concern is dependent upon First Trust Land Management Pty Ltd, as sponsor, continuing to provide the Fund with adequate cash flow support for the Fund to meet its current and future obligations as and when these falls due, should this be required.

The Directors believe that the Fund will continue as a going concern and consequently will realise assets and settle liabilities and commitments in the ordinary course of business and at the amounts stated in the financial report.

**(d) Functional and presentation currency**

These financial statements are presented in Australian dollars, which is the Fund's functional currency.

**FIRST TRUST LAND FUND**  
**ARSN 653 537 930**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE PERIOD ENDED 30 JUNE 2022**

**NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(e) Use of estimates and judgements**

The preparation of financial statements requires the Directors of the Responsible Entity to undertake a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

*Fair value measurement*

When an asset is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell the asset in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset assuming they act in their economic best interests.

The fair value of assets in an inactive or unquoted market are determined by the use of valuation techniques which require significant judgement.

**Significant accounting policies**

**(a) Financial instruments**

Financial assets and financial liabilities are recognised on the Fund's Statement of Financial Position when the Fund becomes a party to the contractual provisions of the instrument.

**(i) Measurement**

The Fund's financial assets comprise of investments which the company intends to hold for the foreseeable future and has irrevocably elected to classify them as held at fair value through other comprehensive income upon initial recognition.

Under this approach, financial assets are measured initially at fair value including any transaction costs that are directly attributable to acquisition.

Subsequent to initial recognition, financial assets are measured at fair value with changes in their fair value recognised in other comprehensive income.

AASB 7 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs for the asset or liability

*Fair value in an active market*

The fair value of financial assets traded in active markets are based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices on the reporting date, while financial liabilities are priced at current offer prices.

*Fair value in an inactive or unquoted market*

The fair values of financial assets that are not traded in an active market are determined through the valuation policy identified in the Product Disclosure Statement for the Fund.

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE PERIOD ENDED 30 JUNE 2022**

**NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(ii) Categorisation**

The Fund's investments are categorised as follows:

*Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

*Financial liabilities and equity*

Financial liabilities and equity instruments issued by the Fund are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. The accounting policies adopted for specific financial liabilities and equity instruments are set out below:

*Issued units*

The Fund issues units which have a limited life under the Fund's Constitution and are classified as a liability in accordance with *AASB 132 Financial Instruments: Presentation*.

Where the Fund buys back any of its units from unitholders, the consideration paid, including any directly attributable incremental costs are recognised as a reduction in liability attributable to the Fund's unitholders.

**(b) Goods and services tax (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense. Receivables and payables in the statement of financial position are shown inclusive of GST, and accruals are shown exclusive of GST.

**(c) Income tax**

Under current legislation, the Fund is not liable for income tax provided its taxable income is fully distributed to unitholders.

**(d) Trade and Other Payables**

Trade and other payables represent the liabilities for goods and services received by the Fund that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

**(e) Revenue and Other Income**

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed.

Interest revenue is recognised using the effective interest method, which, for floating rate financial assets is the rate inherent in the instrument.

All revenue is stated net of the amount of Goods and Services Tax (GST).

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE PERIOD ENDED 30 JUNE 2022**

**NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(f) Trade Receivables**

Trade receivables include amounts due from customers for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Refer to Note 1(d) for further discussion on the determination of impairment losses.

**(g) Foreign Exchange**

Items included in the financial records are measured using the currency of the primary economic environment in which the entity operates (functional currency). The financial statements are presented in Australian dollars, which is the presentation currency of the Fund.

**(h) Provisions**

Provisions are recognised when the Fund has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

**(i) New accounting standards and interpretations**

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2021 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2022 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

**NOTE 15: CONTINGENT LIABILITIES**

There are no contingent liabilities at the end of the period.

**NOTE 16: EVENTS SUBSEQUENT TO REPORTING DATE**

A development at 8 Grace Street, Camberwell, Victoria has been settled in August 2022. The development is now owned by a recently established SPV (Grace 8 Pty Ltd). A development proposal has been sought for two executive town residences to be developed. The fund contributed \$2,721,320 towards the purchase price, by investing in equity to that value in the SPV. The \$2,721,320 was financed by new investor funds in July and August and the remainder was financed from existing sources

As at the date of this report, there have been no other events subsequent to the reporting date that require additional disclosure.

**NOTE 17: FINANCIAL RISK MANAGEMENT**

**(a) Liquidity Risk**

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund's investments are not considered to be assets that are readily realisable.

In order to address this risk, the Responsible Entity retains broad discretion to restrict distributions, withdrawals and/or redemptions.

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE PERIOD ENDED 30 JUNE 2022**

**NOTE 17: FINANCIAL RISK MANAGEMENT (continued)**

**(b) Credit Risk**

Credit risk is the risk that a counterparty fails to discharge an obligation to the Fund. The Fund is exposed to this risk for various financial instruments, for example, placing money at financial institutions or interest revenue that is paid in arrears. The Fund's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at the reporting date.

The Responsible Entity manages the exposure to credit risk on an ongoing basis. The Fund's management considers that all the above financial assets that are not impaired or past due for each of the reporting dates under review are of good credit quality.

**(c) Market Risk**

The Fund is exposed to market risk through its use of financial instruments and specifically to interest rate risk and property value risk, which results from both its operating and investing activities. Market risk is the risk that changes in market prices which will affect the Fund's income. Market risk embodies the potential for both loss and gains. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk. Market risk is monitored by the Responsible Entity.

**(d) Interest Rate Risk**

The Fund's interest rate risk is monitored by the Responsible Entity.

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments.

**(e) Development and construction risk**

The Fund will be investing in property development projects which are subject to risks which can affect the returns available to Investors. These risks may include the inability to obtain appropriate or sufficient government planning approval to undertake a successful development of a property; the risk of costs overruns and costs to complete any construction work may be more than forecast and additional capital or finance may need to be sourced.

Additional risks may cover areas such as the completion of buildings under contract could be delayed due to the fault of the developer or other unforeseen events; the development and construction can be subject to external influence over which the Fund has little or no control. There are also risks associated with the potential deterioration of material, labour and general market conditions.

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE PERIOD ENDED 30 JUNE 2022**

**NOTE 17: FINANCIAL RISK MANAGEMENT (continued)**

**(f) Borrowing risk**

Collectively, the Special Purpose Vehicles (SPVs) that the Fund may invest in, may combine money with borrowed money in the Fund and invest the combined amount in a property. This process, known as gearing, magnifies the effect of gains and losses on the investment and is potentially considered more risky than similar investments that are not geared.

If property values fall significantly the SPVs invested in may be unable to meet its loan covenants which may result in the sale of SPV assets.

In addition to the property risks outlined above, changes to interest rates or lender credit margins impact borrowing costs of SPVs invested in and ultimately impact the level of income you receive.

There is also a risk that the SPVs invested may not be able to refinance its borrowings when borrowing facilities mature. If this occurs, the Fund may lose value from the SPVs selling assets in poor market conditions in order to repay the borrowed amount.
