NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The financial report is for the Freedom Income Fund ('the Fund'). The Fund is an unregistered managed investment scheme established and domiciled in Australia. The Trustee of the Fund is Vasco Custodians Pty Ltd, and Freedom Term Investments and Fixed Income Pty Ltd is appointed as the Investment Manager of the Fund.

Basis of Preparation

(a) Statement of compliance

The Fund has elected to adopt the Australian Accounting Standards – Reduced Disclosure Requirements (established by AASB 1053 *Application of Tiers of Australian Accounting Standards*).

These financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the *Corporations Act 2001*. Freedom Income Fund is a for-profit entity for the purpose of preparing the financial statements.

The financial statements were approved by the Board of Directors of the Trustee on 14 September 2022.

(b) Basis of measurement

The financial report is prepared on the historical cost basis except for the following material items in the statement of financial position:

Investment assets are measured at fair value.

(c) Functional and presentation currency

These financial statements are presented in Australian dollars, which is the Fund's functional currency.

(d) Use of estimates and judgements

The preparation of financial statements requires the Directors of the Trustee to undertake a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

(i) Fair value estimation

Investment properties are carried at values that are based on assumptions and estimates. If any of these assumptions or estimates were not correct this could have a material impact on the carrying amounts in the statement of financial position.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)

Significant accounting policies

(a) Financial instruments

Financial assets and financial liabilities are recognised on the Fund's Statement of Financial Position when the Fund becomes a party to the contractual provisions of the instrument.

(i) Measurement

Financial assets and financial liabilities are held at fair value through profit or loss.

Under this approach, financial assets and financial liabilities are generally measured initially at fair value excluding any transaction costs that are directly attributable to acquisition.

Subsequent to initial recognition, all financial instruments are measured at fair value with changes in their fair value recognised in the statement of comprehensive income.

Fair value in an active market

The fair value of financial assets and liabilities traded in active markets are based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices on the reporting date, while financial liabilities are priced at current offer prices.

Fair value in an inactive or unquoted market

The fair values of financial assets and liabilities that are not traded in an active market are determined through the valuation policy identified in the Information Memorandum for the Fund.

(ii) Categorisation

The Fund's investments are categorised as follows:

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Financial liabilities and equity

Financial liabilities and equity instruments issued by the Fund are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. The accounting policies adopted for specific financial liabilities and equity instruments are set out below:

Issued units

The Fund issues units which have a limited life under the Fund's Constitution and are classified as a liability in accordance with AASB 132 Financial Instruments: Presentation.

Where the Fund buys back any of its units from unitholders, the consideration paid, including any directly attributable incremental costs are recognised as a reduction in liability attributable to the Fund's unitholders.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)

(b) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense. Receivables and payables in the statement of financial position are shown inclusive of GST, and accruals are shown exclusive of GST.

(c) Income tax

Under current legislation, the Fund is not liable for income tax provided its taxable income is fully distributed to unitholders.

(d) Critical judgements and significant accounting estimates

The preparation of financial statements requires the Directors of the Trustee to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

(e) New accounting standards and interpretations

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2021 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

The Fund regards total equity as capital. The objective of the Fund is to provide unitholders with income distributions. The Fund aims to achieve this objective mainly through making loans to borrower to purchase the Client Book of Logic Financial Services Pty Ltd, a related party financial planning company and provide business loans to third party professional services businesses, including financial planning businesses and registered tax agents.

The Fund aims to invest to meet the Fund's investment objectives while maintaining sufficient liquidity to meet its commitments, including unitholder redemptions. The Investment Manager regularly reviews the performance of the Fund, including asset allocation strategies, investment and risk management.

NOTE 13: EVENTS SUBSEQUENT TO REPORTING DATE

There have been no other events subsequent to the reporting date that require additional disclosure.

NOTE 14: FINANCIAL RISK MANAGEMENT

(a) Liquidity Risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund holds investments in property loans, which are not considered to be assets that are readily realisable.

In order to address this risk, the Trustee retains broad discretion to restrict distributions, withdrawals and/or redemptions.

(b) Default and Credit Risk

There is a risk that the Borrower may not be able to meet its financial obligations under the loan. This may be for a wide range of reasons, including a change in the individual financial or other circumstances of the Borrower or a change in the economic climate generally. In addition, the ability of the Fund to recover any of its investments may be impacted by and subject to the rights of other secured lenders. This means that where a senior debt lender has priority in respect of funds generated by the projects invested into by a borrower, there may not be sufficient funds to repay the Fund's investment after repayment of the senior debt facility.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 14: FINANCIAL RISK MANAGEMENT (continued)

(b) Default and Credit Risk (continued)

Credit risk is the risk that a counterparty fails to discharge an obligation to the Fund. The Fund is exposed to this risk for various financial instruments, for example, placing money at financial institutions or loan interest that is paid in arrears. The Fund's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at the reporting date.

The Investment Manager manages the exposure to credit risk on an ongoing basis.

To date, the Fund has made a loan to a single borrower Freedom Wealth Services Pty Ltd. The loan is secured by a general security agreement over all presently and future acquired property of the Borrower.

(c) Valuation risk

The valuation of the security property for the Loan may be inaccurate or not accurately reflect its true value at the time the valuation is undertaken. If the valuation of the security property for a Loan is incorrect, then the amount realised on the sale of a security property may not cover the amount lent to the Borrower
