NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2023**

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The financial report is for the ICFM Development Fund Sunbury Investment Option ('the Fund'). The Fund is an unregistered managed investment scheme established and domiciled in Australia. The Trustee of the Fund is Vasco Custodians Pty Ltd, and Infinity Capital Funds Management Pty Ltd is the Investment Manager of the Fund.

Basis of Preparation

(a) Statement of compliance

The Fund has elected to adopt the Australian Accounting Standards – Reduced Disclosure Requirements (established by AASB 1053 *Application of Tiers of Australian Accounting Standards*).

These financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the *Corporations Act 2001*. ICFM Development Fund Sunbury Investment Option is a for-profit entity for the purpose of preparing the financial statements.

The financial statements were approved by the Board of Directors of the Trustee.

(b) Basis of measurement

The financial report is prepared on the historical cost basis except for the following material items in the Statement of Financial Position:

Investment assets are measured at fair value.

(c) Functional and presentation currency

These financial statements are presented in Australian dollars, which is the Fund's functional currency.

(d) Use of estimates and judgements

The preparation of financial statements requires the Directors of the Trustee to undertake a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised and in any future years affected.

(i) Fair value estimation

Investment properties are carried at values that are based on assumptions and estimates. If any of these assumptions or estimates were not correct this could have a material impact on the carrying amounts in the statement of financial position.

**ICFM DEVELOPMENT FUND

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2023**

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)

Significant accounting policies

(a) Financial instruments

Financial assets and financial liabilities are recognised on the Fund's Statement of Financial Position when the Fund becomes a party to the contractual provisions of the instrument.

(i) Measurement

Financial assets and financial liabilities are held at fair value through profit or loss.

Under this approach, financial assets and financial liabilities are generally measured initially at fair value excluding any transaction costs that are directly attributable to acquisition.

Subsequent to initial recognition, all financial instruments are measured at fair value with changes in their fair value recognised in the statement of comprehensive income.

Fair value in an active market

The fair value of financial assets and liabilities traded in active markets are based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices on the reporting date, while financial liabilities are priced at current offer prices.

Fair value in an inactive or unquoted market

The fair values of financial assets and liabilities that are not traded in an active market are determined through the valuation policy identified in the Information Memorandum for the Fund.

(ii) Categorisation

The Fund's investments are categorised as follows:

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Financial liabilities and equity

Financial liabilities and equity instruments issued by the Fund are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. The accounting policies adopted for specific financial liabilities and equity instruments are set out below:

Issued units

The Fund issues units which have a limited life under the Fund's Constitution and are classified as a liability in accordance with *AASB 132 Financial Instruments: Presentation*.

Where the Fund buys back any of its units from unitholders, the consideration paid, including any directly attributable incremental costs are recognised as a reduction in liability attributable to the Fund's unitholders.

SUNBURY INVESTMENT OPTION
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2023**

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)

(b) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense. Receivables and payables in the statement of financial position are shown inclusive of GST, and accruals are shown exclusive of GST.

(c) Income tax

Under current legislation, the Fund is not liable for income tax provided its taxable income is fully distributed to unitholders.

(d) Critical judgements and significant accounting estimates

The preparation of financial statements requires the Directors of the Trustee to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

(e) New accounting standards and interpretations

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior years or will affect the current or future years.

A number of new standards, amendments to standards and interpretations are effective for annual years beginning after 1 January 2023, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

NOTE 7: NET ASSETS ATTRIBUTABLE TO UNITHOLDERS)continued)

(d) Capital management

The Fund regards total unitholders' interests as its capital. The objective of the Fund is to provide unitholders with capital growth. The Fund aims to achieve this objective mainly through direct investment in a property development trust.

The Fund aims to invest to meet the Fund's investment objectives while maintaining sufficient liquidity to meet its commitments, including unitholder redemptions. The Investment Manager regularly reviews the performance of the Fund, including asset allocation strategies, investment and risk management.

NOTE 8: RELATED PARTY TRANSACTIONS

The Fund's related parties include those described below.

Unless otherwise stated, none of the transactions incorporate special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash.

The Trustee of the Fund was Vasco Custodians Pty Ltd. During the financial period the Trustee Fees were paid directly by the Investment Manager and the Trust. During the year, payments totalling \$25,000 (2022: \$25,000) were made to Vasco Custodians Pty Ltd. The payment covers the trustee fee for all 6 investment options of the ICFM Development Fund.

(b) Investment Manager

The Investment Manager of the Fund is Infinity Capital Funds Management Pty Ltd.

(c) Administration Manager

The Administration Manager of the Fund is Vasco Fund Services Pty Ltd. NOTE 10: EVENTS SUBSEQUENT TO REPORTING DATE

As at the date of this report, there have been no other events subsequent to the reporting date that require additional disclosure.

NOTE 11: FINANCIAL RISK MANAGEMENT

(a) Liquidity Risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund holds investments in property loans, which are not considered to be assets that are readily realisable. In order to address this risk, the Trustee retains broad discretion to restrict distributions, withdrawals and/or redemptions.

(b) Credit Risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the Fund. The Fund is exposed to this risk for various financial instruments, for example, placing money at financial institutions or interest revenue that is paid in arrears. The Fund's maximum exposure to credit risk is limited to the carrying amount of financial and loan assets recognised at the reporting date.

The Investment Manager manages the exposure to credit risk on an ongoing basis.

To date, the Fund has made a loan to a single borrower Sunbury Investment Option Unit Trust.

(c) Property Market Risk

Investment properties form a significant part of the Fund's assets, and are carried at fair value within the accounts. As a result, the statement of comprehensive income of the Fund is exposed to movements in property valuations, year on year. These movements are unrealised, until the point that an investment property is sold. The property market is closely monitored by the Board and the decision to buy or sell a property is closely related to the state of the property market and expectations of future rental yield. In addition, in depth due diligence is performed over a property before it is purchased and ongoing monitoring is undertaken as part of the compliance plan.

There are a number of uncertainties regarding the outlook for the Australian economy over the next few years. This includes the reluctance of business to commit to major new investments until sustained increase in demand are seen. The property market may also drop in value due to the recent changes in the interest rate environment. Interest rates are increasing rapidly, making it more difficult for individuals to repay their loans. During such market conditions, the demand for properties will get affected, resulting in a decline in property values. This may result in losses should properties be held as security be realised below the loan and receivable book values.

(d) Development and Construction Risk

The Fund will be investing in property development projects which are subject to risks which can affect the returns available to Investors. These risks may include the inability to obtain appropriate or sufficient government planning approval to undertake a successful development of a property; the risk of costs overruns and costs to complete any construction work may be more than forecast and additional capital or finance may need to be sourced.

Additional risks may cover areas such as the completion of buildings under contract could be delayed due to the fault of the developer or other unforeseen events; the development and construction can be subject to external influence over which the Fund has little or no control. There are also risks associated with the potential deterioration of material, labor and general market conditions.

**ICFM DEVELOPMENT FUND
SUNBURY INVESTMENT OPTION
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2023**

NOTE 11: FINANCIAL RISK MANAGEMENT (CONTINUED)

(e) Related Party Risk

Related party transactions carry a risk that the terms agreed between the parties will be less favourable to investors than terms agreed between unrelated parties. Ongoing related party transactions also carry the risk that the terms of the arrangements will not be enforced as diligently as terms agreed between unrelated parties. By making an investment in the Fund, Investors acknowledge that the Fund will invest in entities which are related parties of the Investment Manager. By investing in the Fund, Investors acknowledge that the Trustee may not assess the merits of each investment recommended by the Investment Manager. Accordingly, the Trustee does not guarantee that these transactions will otherwise be entered into on arm's length terms. By investing in the Fund, Investors acknowledge that the Trustee has appointed the Investment Manager to make investment recommendations for the Fund and as a result of this conflict, the investments entered by the Fund may not be on arm's length terms and that they have made their own independent investigations to satisfy themselves of the benefit of becoming an Investor in the Fund.
