FINANCIAL REPORT
FOR THE PERIOD ENDED
30 JUNE 2023

LINCOLN CAPITAL NO.2 FUND
ABN 68 898 745 632
TRUSTEE REPORT
FOR THE PERIOD ENDED 30 JUNE 2023

The Directors of the Trustee, Vasco Custodians Pty Ltd, present their report on the Lincoln Capital No.2 Fund ('the Fund') for the period ended 30 June 2023. In order to comply with the provisions of the *Corporations Act 2001* the Directors report as follows:

1. Directors of Vasco Custodians Pty Ltd

The names of Directors of the Trustee in office at any time during the period are:

Craig Mathew Dunstan

Fiona Jean Dunstan

The Fund was established 1 August 2022 and accordingly, no prior period comparatives are available.

2. Principal Activities

The Fund provides Investors with indirect exposure to development projects including the 925 Whitehorse Project, Station Project, Wellington Project and the 941 Whitehorse Project.

The Fund lends money to the dedicated entity developing the Projects called APH Holding Capital No.2 Pty Ltd ("Borrower" or "APH Holding Capital"). The Loan to the Borrower is secured by a General Security Deed (GSD) over all the assets of the Borrower. The Borrower then lends to special purpose vehicles (SPV) which will own the relevant site or sites (Landowner).

These loans made from the Borrower to the Landowners will not be secured by a GSD. Should a GSD or similar security arrangements arise in the future as between the Borrower and Landowners, it is likely that a Deed of Assignment (DOA) may be entered into between the Fund (as assignee) and the Borrower (as assignor) of the debt and GSD that the Borrower will hold in relation to the loans with each Landowner.

However, the existence of a DOA is not a strict requirement and will be subject to the agreement of all relevant parties and exercised at the discretion of the Trustee. The Borrower will pay to the Fund a portion of the interest payable on the loan on a calendar quarterly basis to fund distributions to investors, with the remainder of the interest paid at maturity of the loan.

3. Operating Results

The total comprehensive income of the Fund for the period ending 30 June 2023 was nil.

4. Review of Operations

The Information Memorandum was issued on 10 Feb 2023. Investors are offered an opportunity to invest in one investment option, with a different target return (pre-tax and net of fees and costs) and minimum investment term.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2023

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The financial report is for the entity Lincoln Capital No.2 Fund ('the Fund') as an individual entity. The Fund is an unlisted managed investment Fund established and domiciled in Australia. The Trustee of the Fund is Vasco Custodians Pty Ltd.

Basis of Preparation

(a) Statement of compliance

The financial report is a general-purpose financial report which has been prepared in accordance with Australian Accounting Standards (including the Australian Accounting interpretations) adopted by the Australian Accounting Standards Board ("AASB") and the *Corporations Act 2001*. The financial report of the Fund complies with International Financial Reporting Standards and interpretations adopted by the International Accounting Standards Board.

The Fund is a for-profit entity for the purpose of preparing the financial statements.

The financial statements were approved by the Board of Directors of the Trustee on 15 August 2023.

(b) Basis of measurement

The financial report is prepared on the historical cost basis except for the following material items in the Statement of Financial Position:

Investment assets are measured at fair value.

(c) Functional and presentation currency

These financial statements are presented in Australian dollars, which is the Fund's functional currency.

(d) Use of estimates and judgements

The preparation of financial statements requires the Directors of the Trustee to undertake a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Significant accounting policies

(a) Financial instruments

Financial assets and financial liabilities are recognised on the Fund's Statement of Financial Position when the Fund becomes a party to the contractual provisions of the instrument.

(i) Measurement

Financial assets and financial liabilities are held at fair value through profit or loss.

Under this approach, financial assets and financial liabilities are generally measured initially at fair value excluding any transaction costs that are directly attributable to acquisition.

Subsequent to initial recognition, all financial instruments are measured at fair value with changes in their fair value recognised in the statement of comprehensive income.

LINCOLN CAPITAL NO.2 FUND
ABN 68 898 745 632
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2023

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)

(i) Measurement (continued)

Fair value in an active market

The fair value of financial assets and liabilities traded in active markets are based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices on the reporting date, while financial liabilities are priced at current offer prices.

Fair value in an inactive or unquoted market

The fair values of financial assets and liabilities that are not traded in an active market are determined through the valuation policy identified in the Information Memorandum for the Fund.

(ii) Categorisation

The Fund's investments are categorised as follows:

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Financial liabilities and equity

Financial liabilities and equity instruments issued by the Fund are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. The accounting policies adopted for specific financial liabilities and equity instruments are set out below:

Issued units

The Fund issues units which have a limited life under the Fund's Constitution and are classified as a liability in accordance with *AASB 132 Financial Instruments: Presentation*.

Where the Fund buys back any of its units from unitholders, the consideration paid, including any directly attributable incremental costs are recognised as a reduction in liability attributable to the Fund's unitholders.

(b) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense. Receivables and payables in the statement of financial position are shown inclusive of GST, and accruals are shown exclusive of GST.

(c) Income tax

Under current legislation, the Fund is not liable for income tax provided its taxable income is fully distributed to unitholders.

(d) Critical judgements and significant accounting estimates

The preparation of financial statements requires the Directors of the Trustee to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2023

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the Fund that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

(f) Revenue and Other Income

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed.

Revenue recognition relating to the provision of services is determined with reference to the stage of completion of the transaction at the end of the reporting period and where the outcome of the contract can be estimated reliably. Stage of completion is determined with reference to the services performed to date as a percentage of total anticipated services to be performed. Where the outcome cannot be estimated reliably, revenue is recognised only to the extent that related expenditure is recoverable.

Revenue is deferred when fees are received upfront but where associated services are yet to be performed. Any consideration deferred for more than one year is treated as a financing arrangement and is discounted at a rate of interest that is generally accepted in the market for similar arrangements. The difference between the amount initially recognised and the amount ultimately received is interest revenue.

Interest revenue is recognised using the effective interest method, which, for floating rate financial assets is the rate inherent in the instrument.

All revenue is stated net of the amount of Goods and Services Tax (GST).

(g) Trade Receivables

Trade receivables include amounts due from customers for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Refer to Note 1(d) for further discussion on the determination of impairment losses.

(h) Foreign Exchange

Items included in the financial records are measured using the currency of the primary economic environment in which the entity operates (functional currency). The financial statements are presented in Australian dollars, which is the presentation currency of the Fund.

(i) Provisions

Provisions are recognised when the Fund has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(j) New accounting standards and interpretations

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2023, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

NOTE 16: FINANCIAL RISK MANAGEMENT

(a) Liquidity Risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund will hold investments in loan facility, which are not considered to be assets that are readily realisable. In order to address this risk, the Trustee retains broad discretion to restrict distributions, withdrawals and/or redemptions.

(b) Construction and development risk

Investments in the Fund are lent to the Borrower who will be undertaking the development project. There are specific risks associated with these types of development projects, including but not limited to construction or development costs can exceed budgeted costs and the developer may be unable to complete a project unless the developers of the Project can obtain further funds. Funds kept in reserve by developers of the project to complete a project may be insufficient to meet the cost of completion; and a change in market conditions could result in the value of the project on completion being worth less than anticipated, or in lower sale rates and prices than expected.

(c) Property value risk

Property markets are subject to volatility over time and the condition of property markets in which the Fund owns property and other indirect property investments can impact investment returns. Market conditions will be impacted by factors such as the economy, business sentiment, demand for and supply of space, demographic trends and government policy and legislation. The Borrower operates in the property market and there are risks associated with property valuations decreasing due to a downturn in the property market. The downturn of the market may impact the amount of interest distributions and capital returns to Investors.

(d) Credit Risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the Fund. The Fund is exposed to this risk for various financial instruments, for example, placing money at financial institutions or interest revenue that is paid in arrears. The Fund's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at the reporting date.

The Trustee manages the exposure to credit risk on an ongoing basis. The Fund's management considers that all the above financial assets that are not impaired or past due for each of the reporting dates under review are of good credit quality.

(e) Market Risk

The Fund is exposed to market risk through its use of financial instruments and specifically to interest rate risk and property value risk, which results from both its operating and investing activities. Market risk is the risk that changes in market prices which will affect the Fund's income. Market risk embodies the potential for both loss and gains. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk. Market risk is monitored by the Trustee.

LINCOLN CAPITAL NO.2 FUND
ABN 68 898 745 632
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2023

NOTE 16: FINANCIAL RISK MANAGEMENT (continued)

(f) Interest Rate Risk

The Fund's interest rate risk is monitored by the Trustee.

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments.

(g) Legal, Regulatory and compliance risk

Changes in government legislation, regulation and policies generally could materially adversely affect the operating results of the Fund. The operation of a funds management business in Australia is subject to significant regulation by Australian government authorities including without limitation the ASIC, the Australian Transactions Reporting and Analysis Centre, the Foreign Investment Review Board and the Australian Consumer and Competition Commission. There is a risk that the Fund may not always comply with its various obligations under government regulations and this may result in the loss of authorisations of the AFSL held by the Trustee thereby preventing the continued operation of the Fund.
