**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2022**

**NOTE 1: SIGNIFICANT ACCOUNTING POLICIES**

**Reporting Entity**

The financial report is for The Nightingale Fund – Nightingale Sheppard Street Seed Investment Option ('the Fund'). The Fund is an unregistered managed investment scheme established and domiciled in Australia. The Trustee of the Fund is Vasco Custodians Pty Ltd, and Nightingale Investment Management Pty Ltd is appointed as the Investment Manager of the Fund.

**Basis of Preparation**

**(a) Statement of compliance**

The Fund has elected to adopt the Australian Accounting Standards – Reduced Disclosure Requirements (established by AASB 1053 Application of Tiers of Australian Accounting Standards).

These financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the Corporations Act 2001. The Nightingale Fund – Nightingale Sheppard Street Seed Investment Option is a for-profit entity for the purpose of preparing the financial statements.

The financial statements were approved by the Board of Directors of the Trustee.

**(b) Basis of measurement**

The financial report is prepared on the historical cost basis except for the following material items in the Statement of Financial Position:

Investment assets are measured at fair value.

**(c) Functional and presentation currency**

These financial statements are presented in Australian dollars, which is the Fund's functional currency.

**(d) Use of estimates and judgements**

The preparation of financial statements requires the Directors of the Trustee to undertake a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

*(i) Fair value estimation*

Investment properties are carried at values that are based on assumptions and estimates. If any of these assumptions or estimates were not correct this could have a material impact on the carrying amounts in the statement of financial position.

SHEPPARD STREET SEED INVESTMENT OPTION**

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2022**

**NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Significant accounting policies**

**(a) Financial instruments**

Financial assets and financial liabilities are recognised on the Fund's Statement of Financial Position when the Fund becomes a party to the contractual provisions of the instrument.

**(i) Measurement**

Financial assets and financial liabilities are held at fair value through profit or loss.

Under this approach, financial assets and financial liabilities are generally measured initially at fair value excluding any transaction costs that are directly attributable to acquisition.

Subsequent to initial recognition, all financial instruments are measured at fair value with changes in their fair value recognised in the statement of comprehensive income.

*Fair value in an active market*

The fair value of financial assets and liabilities traded in active markets are based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices on the reporting date, while financial liabilities are priced at current offer prices.

*Fair value in an inactive or unquoted market*

The fair values of financial assets and liabilities that are not traded in an active market are determined through the valuation policy identified in the Information Memorandum for the Fund.

**(ii) Categorisation**

The Fund's investments are categorised as follows:

*Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

*Financial liabilities and equity*

Financial liabilities and equity instruments issued by the Fund are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. The accounting policies adopted for specific financial liabilities and equity instruments are set out below:

*Issued units*

The Fund issues units which have a limited life under the Fund's Constitution and are classified as a liability in accordance with AASB 132 *Financial Instruments: Presentation*.

Where the Fund buys back any of its units from unitholders, the consideration paid, including any directly attributable incremental costs are recognised as a reduction in liability attributable to the Fund's unitholders.

SHEPPARD STREET SEED INVESTMENT OPTION**

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2022**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense. Receivables and payables in the statement of financial position are shown inclusive of GST, and accruals are shown exclusive of GST.

**(c) Income tax**

Under current legislation, the Fund is not liable for income tax provided its taxable income is fully distributed to unitholders.

**(d) Critical judgements and significant accounting estimates**

The preparation of financial statements requires the Directors of the Trustee to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

**(e) New accounting standards and interpretations**

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2021 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

The Investment Manager regularly reviews the performance of the Fund, including asset allocation strategies, investment and risk management.

**NOTES TO THE FINANCIAL STATEMENTS

**NOTE 12: RELATED PARTY TRANSACTIONS (continued)**

**(c) Administration Manager**

The Administration Manager of the Fund is Vasco Fund Services Pty Limited.

Administration fees of \$1,695 (plus GST) were accrued and paid by the Fund to Vasco Fund Services Pty Limited for its role as Administration Manager of the Fund, of which \$127 is claimable by the Fund as RITC.

**(d) Key management personnel**

The Fund does not employ personnel in its own right. However, it has an incorporated Trustee, Vasco Custodians Pty Ltd, and an Investment Manager, Nightingale Investment Management Pty Ltd, to manage the activities of the Fund. The Directors of the Trustee and Investment Manager are key management personnel of those corporate entities. No compensation is paid directly by the Fund to Directors or to any of the key management personnel of the Trustee or Investment Manager. Payments made by the Fund to the Trustee and Investment Manager do not specifically include any amounts attributable to the compensation of key management personnel.

**NOTE 13: CONTINGENT LIABILITIES**

There are no contingent liabilities at the end of the period.

**NOTE 14: EVENTS SUBSEQUENT TO REPORTING DATE**

As at the date of this report, there have been no events subsequent to the reporting date that require additional disclosure.

**NOTE 15: FINANCIAL RISK MANAGEMENT**

**(a) Liquidity risk**

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund holds investments in property loans, which are not considered to be assets that are readily realisable.

In order to address this risk, the Trustee retains broad discretion to restrict distributions, withdrawals and/or redemptions.

**(b) Development and construction risk**

Investments in the Fund will be lent to the Borrower who owns the land on which the Project will be developed. These risks may include the inability to obtain appropriate or sufficient government planning approval to undertake a successful development of a property; the risk of costs overruns and costs to complete any construction work may be more than forecast and additional capital or finance may need to be sourced.

**THE NIGHTINGALE FUND  
SHEPPARD STREET SEED INVESTMENT OPTION**

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2022**

**NOTE 15: FINANCIAL RISK MANAGEMENT (continued)**

**(b) Development and construction risk (continued)**

Additional risks may cover areas such as the completion of buildings under contract could be delayed due to the fault of the developer or other unforeseen events; the development and construction can be subject to external influence over which the Fund has little or no control. There are also risks associated with the potential deterioration of material, labour and general market conditions.

**(c) Investment risk**

The value of an investment may rise or fall, distributions may or may not be paid and Investor's capital may or may not be returned. No guarantee is made by the Trustee, the Investment Manager, or any of their directors, associates or consultants on the performance of the Fund. Even though the Loan Agreement(s) will require that the Loan(s) be used by the Borrower for the purpose specified above, the Trustee cannot guarantee that the Borrower will comply in whole or in part with this purpose. Investors should therefore be aware that Fund's only direct investment is the Loan(s) made to the Borrower and the Trustee cannot control how the Borrower will ultimately use the Loan monies lent. Also, there is no guarantee that the Borrower will have financial capacity to repay the loan(s) to the Fund. Therefore, Investors may lose all of their capital investment in the Fund.

**(d) Default and credit risk**

There is a risk that the Borrower may not be able to meet its financial obligations under the Loan Agreement(s). This may be for a wide range of reasons, including a change in the individual financial or other circumstances of the Borrower or a change in the economic climate generally. In addition, the ability of the Fund to recover any of its investment may be impacted by and subject to the rights of a senior secured lender. This means that where a senior debt lender has priority in respect of funds generated by the project invested into by the Borrower, there may not be sufficient funds to repay the Fund's investment after repayment of the senior debt facility. Further, there will be no rights to recover the debt by seeking to take control or sell any real property of the Investment Manager. The Fund's maximum exposure to credit risk is limited to the carrying amount of financial and loan assets recognised at the reporting date.

The Investment Manager manages the exposure to credit risk on an ongoing basis.

**(e) Property valuation risk**

The Borrower operates in the property market and there are risks associated with property valuations decreasing due to a downturn in the property market. The downturn of the market may impact the amount of interest distributions and capital returns to Investors.

**(f) Credit risk**

Credit risk is the risk that a counterparty fails to discharge an obligation to the Fund. The Fund is exposed to this risk for various financial instruments, for example, placing money at financial institutions or interest revenue that is paid in arrears. The Fund's maximum exposure to credit risk is limited to the carrying amount of financial and loan assets recognised at the reporting date.

The Investment Manager manages the exposure to credit risk on an ongoing basis.
