**(a) Statement of compliance**

The Fund has elected to adopt the Australian Accounting Standards – Reduced Disclosure Requirements (established by AASB 1053 *Application of Tiers of Australian Accounting Standards*).

These financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the *Corporations Act 2001*. The Nightingale Fund – Nightingale 170 Sydney Road Investment Option is a for-profit entity for the purpose of preparing the financial statements.

The financial statements were approved by the Board of Directors of the Trustee.

**(b) Basis of measurement**

Investment assets are measured at fair value.

**(c) Functional and presentation currency**

These financial statements are presented in Australian dollars, which is the Fund's functional currency.

**(d) Use of estimates and judgements**

The preparation of financial statements requires the Directors of the Trustee to undertake a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2022**

**NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Significant accounting policies**

**(a) Financial instruments**

Financial assets and financial liabilities are recognised on the Fund's Statement of Financial Position when the Fund becomes a party to the contractual provisions of the instrument.

**(i) Measurement**

Financial assets and financial liabilities are held at fair value through profit or loss.

Under this approach, financial assets and financial liabilities are generally measured initially at fair value excluding any transaction costs that are directly attributable to acquisition.

Subsequent to initial recognition, all financial instruments are measured at fair value with changes in their fair value recognised in the statement of comprehensive income.

*Fair value in an active market*

The fair value of financial assets and liabilities traded in active markets are based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices on the reporting date, while financial liabilities are priced at current offer prices.

*Fair value in an inactive or unquoted market*

The fair values of financial assets and liabilities that are not traded in an active market are determined through the valuation policy identified in the Information Memorandum for the Fund.

**(ii) Categorisation**

The Fund's investments are categorised as follows:

*Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

*Financial liabilities and equity*

Financial liabilities and equity instruments issued by the Fund are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. The accounting policies adopted for specific financial liabilities and equity instruments are set out below:

*Issued units*

The Fund issues units which have a limited life under the Fund's Constitution and are classified as a liability in accordance with *AASB 132 Financial Instruments: Presentation*.

Where the Fund buys back any of its units from unitholders, the consideration paid, including any directly attributable incremental costs are recognised as a reduction in liability attributable to the Fund's unitholders.

Receivables and payables in the statement of financial position are shown inclusive of GST, and accruals are shown exclusive of GST.

**(c) Income tax**

Under current legislation, the Fund is not liable for income tax provided its taxable income is fully distributed to unitholders.

**(d) Critical judgements and significant accounting estimates**

The preparation of financial statements requires the Directors of the Trustee to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

**(e) New accounting standards and interpretations**

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2021 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

170 SYDNEY ROAD SEED INVESTMENT OPTION**

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2022**

**NOTE 15: FINANCIAL RISK MANAGEMENT**

**(a) Liquidity risk**

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund holds investments in property loans, which are not considered to be assets that are readily realisable.

In order to address this risk, the Trustee retains broad discretion to restrict distributions, withdrawals and/or redemptions.

**(b) Construction and development risk**

Investments in the Fund will be lent to the Borrower who owns the land on which the Project will be developed. There are specific risks associated with these types of development projects, including construction or development costs exceeding budgeted costs and the developer may be unable to complete a project unless the developer of the Project can obtain further funds. Funds kept in reserve by developers of the project may be insufficient to meet the cost of completion. A change in market conditions could result in the value of the project on completion being worth less than anticipated, or in lower sale rates and prices than expected.

**(c) Default and credit risk**

There is a risk that the Borrower may not be able to meet its financial obligations under the Loan Agreement(s). This may be for a wide range of reasons, including a change in the individual financial or other circumstances of the Borrower or a change in the economic climate generally. In addition, the ability of the Fund to recover any of its investment may be impacted by and subject to the rights of a senior secured lender. This means that where a senior debt lender has priority in respect of funds generated by the project invested into by the Borrower, there may not be sufficient funds to repay the Fund's investment after repayment of the senior debt facility.

Credit risk is the risk that a counterparty fails to discharge an obligation to the Fund. The Fund is exposed to this risk for various financial instruments, for example, placing money at financial institutions or interest revenue that is paid in arrears. The Fund's maximum exposure to credit risk is limited to the carrying amount of financial and loan assets recognised at the reporting date.

The Investment Manager manages the exposure to credit risk on an ongoing basis.

**(d) Downturn in Property Market**
