## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

### NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

#### Reporting Entity

The financial report is for the Vasco Emerging Companies Fund ('the Fund'). The Fund is an unregistered managed investment scheme established and domiciled in Australia. The Trustee of the Fund is Vasco Custodians Pty Ltd, and Vasco Custodians Pty Ltd is also acting as the Investment Manager of the Fund.

#### Basis of Preparation

##### (a) Statement of compliance

The Fund has elected to adopt the Australian Accounting Standards – Reduced Disclosure Requirements (established by AASB 1053 *Application of Tiers of Australian Accounting Standards*).

These financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the *Corporations Act 2001*. Vasco Emerging Companies Fund is a for-profit entity for the purpose of preparing the financial statements.

The financial statements were approved by the Board of Directors of the Trustee on 30 September 2022.

##### (b) Basis of measurement

The financial report is prepared on the historical cost basis except for the following material items in the Statement of Financial Position:

Investment assets are measured at fair value.

##### (c) Functional and presentation currency

These financial statements are presented in Australian dollars, which is the Fund's functional currency.

##### (d) Use of estimates and judgements

The preparation of financial statements requires the Directors of the Trustee to undertake a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

##### (e) Financial instruments

Financial assets and financial liabilities are recognised on the Fund's Statement of Financial Position when the Fund becomes a party to the contractual provisions of the instrument.

##### (f) Measurement

Financial assets and financial liabilities are held at fair value through profit or loss.

Under this approach, financial assets and financial liabilities are generally measured initially at fair value excluding any transaction costs that are directly attributable to acquisition.

Subsequent to initial recognition, all financial instruments are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income.

## VASCO EMERGING COMPANIES FUND

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)

##### *Fair value in an active market*

The fair value of financial assets and liabilities traded in active markets are based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices on the reporting date, while financial liabilities are priced at current offer prices.

##### *Fair value in an inactive or unquoted market*

The fair values of financial assets and liabilities that are not traded in an active market are determined through the valuation policy identified in the Information Memorandum for the Fund.

#### **(g) Categorisation**

The Fund's investments are categorised as follows:

##### *Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

##### *Financial liabilities and equity*

Financial liabilities and equity instruments issued by the Fund are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. The accounting policies adopted for specific financial liabilities and equity instruments are set out below:

##### *Issued units*

The Fund issues units which have a limited life under the Fund's Constitution and are classified as equity in accordance with *AASB 132 Financial Instruments*.

Where the Fund buys back any of its units from unitholders, the consideration paid, including any directly attributable incremental costs are recognised as a reduction in equity attributable to the Fund's unitholders.

#### **(h) Goods and services tax (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense. Receivables and payables in the Statement of Financial Position are shown inclusive of GST, and accruals are shown exclusive of GST.

#### **(i) Income tax**

Under current legislation, the Fund is not liable for income tax provided its taxable income is fully distributed to unitholders.

#### **(j) Critical judgements and significant accounting estimates**

The preparation of financial statements requires the Directors of the Trustee to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### **NOTE 14: CONTINGENT LIABILITIES**

There are no contingent liabilities at the end of the period.

#### **NOTE 15: EVENTS SUBSEQUENT TO REPORTING DATE**

As at the date of this report, there have been no other events subsequent to the reporting date that require additional disclosure.

#### **NOTE 16: FINANCIAL RISK MANAGEMENT**

##### **(a) Liquidity Risk**

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund holds investments in emerging company shares, which are not considered to be assets that are readily realisable.

In order to address this risk, the Trustee retains broad discretion to restrict distributions, withdrawals and/or redemptions.

##### **(b) Securities Market Risk**

Changes in securities prices across the relevant securities markets in which the Fund invests may adversely affect the performance of its units. Factors that drive changes in securities prices include changing profitability of companies and industries, economic cycles, volume of share issuance, investor demand levels, business confidence and government and central bank policies including the level and direction of interest rates and natural disasters and man-made disasters beyond the control of the Investment Manager and the Trustee.

Whilst complying with the Significant Investor Visa guidelines for complying emerging companies' funds, the Investment Manager will take a relatively conservative investment approach and hold a significant weighting to cash, floating rate interest securities and real estate securities so as to reduce market risk and the volatility of returns to investors.
